### Disclosure:

If applicable, the portfolio-level performance returns shown are hypothetical, based on historic economic and market assumptions and the investment and planning assumptions selected by your financial professional. Hypothetical performance is for illustrative purposes only and is not a guarantee of future results. Actual performance returns will vary. If required to do so under applicable regulation, your financial professional has determined that you have the resources and financial expertise to understand the risks and limitations of using such hypothetical performance returns in making investment decisions. "Net" performance returns are calculated using the fees and expenses input by your financial professional. "Gross" performance returns are calculated before the deduction of all fees and expenses that you have paid or would have paid in connection with your financial professional's services. Such fees may include investment advisory fees; however, not all financial professionals charge investment advisory fees. You should speak with your financial professional to understand the fees and expenses they included and the impact that fees and expenses have on performance returns before making investment decisions. The historical benchmark index performance is selected by your financial professional as a comparison tool and is provided for informational purposes only. Actual performance returns will vary. Please refer to your financial professional and any disclosures they provide to you for additional information.

### Disclosure:

The risk and return statistics shown above are for illustrative purposes only and are based on historic economic and market assumptions and the investment and planning assumptions selected by your financial professional. Such historic asset allocations are not available for direct investment and the performance does not reflect costs, fees or expenses associated with investing in the instruments that could comprise the allocation. Historic asset allocations provide historical market data that serves as point of reference to compare the performance of a particular investment and/or investment strategy. No representation is made by Morningstar that any historic asset allocation selected by your financial professional is an appropriate measure for comparison.
